

HELP SHAPE THE FUTURE OF AURORA!

COMMUNITY FEEDBACK SESSION: NEW CITY HALL DESIGN

The City of Aurora is building a new City Hall—right on the site of the old one, which was recently condemned. This is more than a replacement building—it's a chance to create a space that reflects the values and needs of our growing community.

We want to hear from **you**—residents, neighbors, and business owners—about what matters most in your City Hall. What should it look like? How should it feel? What should it offer?

Hosted by CREATE d+d Architects in partnership with the City of Aurora. Join us for a short presentation, light refreshments, and an open discussion. Your input will help guide the design and fundraising efforts for this important project.

THIS IS YOUR CITY HALL—LET'S DESIGN IT TOGETHER.
