AURORA SANITARY SEWER COLLECTION SYSTEM IMPROVEMENTS - PHASE 2

The contractor will set up traffic control for roadway closures. Roadways will not be opened until the contractor has completed reconstruction work.

Special accommodations and coordination will be made with Emergency Services, School Bus, and BATA - routes will be altered.

Local companies and service providers will be impacted and may need to alter their routes.

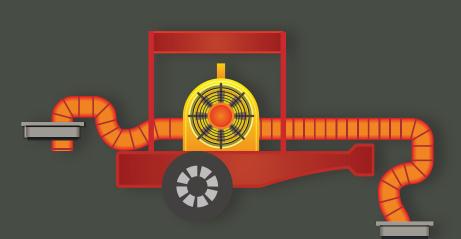

Contractor will be working in the street, ditch, and boulevards.

Contractor will install main sanitary sewer lines and manholes followed by service home connections.

The sanitary sewer system shall remain operational during the project. Residents are asked to limit use of their services while crews are working within 1 block of their homes. Sewer bypass pumps will be used during portions of the project and may be in operation over night.

Water service may be temporarily shut during reconnection. Minimum of 24 to 48 notice will provided. Please look for a **FRONT** door hang tag.

Temporary mailboxes will be installed for residents along closed portions of th project. The City and Post Office will coordinate this location wit the Contractor. Normal mail service will continue if the Post Office can access the normal route.

Garbage cans will need to be placed at the end of the block while street is closed or as directed by city staff.

SPECIAL ACCOMMODATIONS

Please let us know if you have a home business, disability, or planned event that would require access to your house. Accommodations can be made.

MAY 2024
